IMPORTANT DEP REGULATIONS

In accordance with new DEP regulations and Borough Ordinances, the following is effective immediately:

1. Placing leaves at the curb or along the street must be completed prior to a scheduled pick-up.
2. Leaves shall not be placed closer than ten (10) feet from any stormbasin.
3. Municipalities are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local waterbodies.
4. The homeowner will be responsible for his/her landscaper, making sure the leaves are placed properly along the curb and in a timely fashion. Landscapers will be permitted to dump residents' leaves at the Recycling Center.
5. Do not let sewage or other wastes flow into a stormwater system.

GARBAGE

Garbage should be placed in garbage containers after 6 pm the evening before the scheduled garbage day; the garbage hauler will not pick up black contractor bags. The garbage hauler will only pick up household waste and furniture; no construction materials or debris will be picked up. While it is tempting to telephone the DPW or the Municipal Clerk's Office to complain when garbage has not been picked up, the proper procedure is to telephone Suburban Disposal, the garbage hauler, at 973 675-5451.

2026 LEAF COLLECTION SCHEDULE

As in the past, we will begin random leaf pickup prior to the schedule on an as-needed basis. No leaves should be placed at the curb before October 12. It is important that you are in compliance with the state DEP regulations. Please make sure that your leaves are at the curb on Monday morning of the week we are scheduled to be in your zone. The collection schedule spans a full week and DPW crews could be there to pick up your leaves any day during that week. No leaves should be placed curbside after November 30 Spread leaves along the entire frontage of your property but DO NOT rake near storm basins. DEP regulations clearly state that leaves must be at least 10 feet away from storm basins to prevent leaves from being washed into the basins. Only put leaves out – nothing else.

MAKE NOTE
of important State stormwater regulations at left. It is the homeowners' responsibility to know and abide by these new rules.

COLLECTION DATES

Week of Oct. 19 & Week of Nov. 9
