## HOLLEY NAVARRE WATER SYSTEM ENGAGES YOUNG MINDS AT NAVARRE HIGH SCHOOL "TOUCH-A-TRUCK" EVENT

Holley Navarre Water System (HNWS) made a spirited appearance at the recent Navarre High School "Touch-a-Truck" event. Amidst a symphony of laughter and curiosity, the knowledgeable staff from Holley Navarre Water System eagerly engaged with attendees, offering insights and answering questions about their vital role in the community.

The event, designed to provide students and children with an interactive experience with various vehicles, saw Holley Navarre Water System's VacTruck and new CCTV vehicle. Amidst the excitement, the highlight for many youngsters came when they were given the opportunity to honk the horn of the VacTruck. The delighted giggles and wide-eyed wonder reflected the joyous atmosphere of the event.

"We're thrilled to have been a part of this wonderful event," remarked a representative from HNWS. "Engaging with the community, especially the younger generation, is incredibly rewarding. Events like these not only entertain but also help us recruit the next generation of utility professionals."

Holley Navarre Water System's enthusiastic participation added a unique dimension to the "Touch-a-Truck" event, highlighting the importance of water infrastructure in everyday life.

Special thanks to Navarre High School, Clinton Wells, Chris Legg, Isaiah Miller, Jacobi Smith, and Dennis Ritter.

## Message from the President

*Welcome to the first edition of the HNWS newsletter! There are many exciting things happening in the Holley-Navarre area. Businesses are popping up all over, and residential housing in the area is growing quickly.*

*As your member-owned local water provider we are committed to keeping our members informed as to what HNWS is doing to keep up with the increasing demand while always making sure we are delivering the cleanest water to all our members and treating and disposing of wastewater in a way that helps protect our precious environment. We hope you find this newsletter informative and valuable.*

*We will be releasing newsletters once a quarter so stay informed and we hope you enjoy!*

David Crumbley, HNWS President

Owner/ Operator at The VINE Wine Bar, Bistro & Shoppe  
Navarre, FL

## The Drop Saver

While spring cleaning, add these simple water-saving methods to make a big difference.

1. **Check your toilets for leaks.**
2. **Don't run the hose while washing your car.**
3. **Use a broom instead of the hose to clean your driveway.**

## HNWS CREWS BEGIN SERVICE LINE INVENTORY

HNWS crews have been working throughout the water system to identify service line materials. You may have seen them working around the meter in your yard. This effort is related to the new U.S. Environmental Protection Agency (EPA) regulations for lead and copper in the water distribution system.

To date, HNWS has found no lead services, nor any indication of lead fittings on either our service lines or the customer's service line downstream of the meter.

## Sewer Side Chat

HNWS recently added a new piece of equipment to its inventory that will help us maintain our sewer system. The vehicle was purchased by Municipal Engineering Services (MESI), a wholly-owned subsidiary of HNWS, and will be utilized by both entities.

Before the March Board Meeting, Staff gave a live demonstration to the HNWS Board of Directors and community members while explaining the importance of the equipment.

The Rapid View UTV is a self-contained camera system that enables us to access remote locations and gather CCTV footage and data of the underground sewer and stormwater drainage systems in those remote areas.

This information will help us in keeping our wastewater collection system operating in an efficient and safe manner.

Special thanks to MESI, Clinton Wells, Mark Turner, Isaiah Miller, Jacobi Smith, and Jodi Broxson.

## H2O Highlights

- Board Meetings are the 3rd Tuesday of each month at 6 pm.
- 2024 Office Closures
  - May 27, 2024  
Memorial Day
