Biennial Service Agreement (BSA) Guidelines for more details before you complete this document.

A. Needs Statement

# **1.** Identify challenges in financial assistance that are prohibiting you from properly serving MFIP/DWP families in your community.

Wabasha County is experiencing a lack of daycare providers to meet the needs of the MFIP participants in order to take advantage of a strong and positive labor market.

Transportation of all kinds (individual, public, common carrier) continues to be an issue. For example, the Jeremiah Program opened a site in the adjoining county. But the requirements are that our MFIP participants must be able to attend a weekly meeting for the program. Again, without transportation, this wonderful program that may benefit many of our participants may not be attainable due to lack of transportation. This lack of transportation makes it challenging for our families to engage in employment, adult basic education, skill building or higher education.

The high cost of housing is also prohibitive, forcing families to live where they can find housing which often isn't where the livable wage jobs, childcare and transportation are located.

# 2. \* Identify challenges in employment services that are prohibiting you from properly serving MFIP/DWP families in your community.

One of the biggest challenges in this labor market is finding the right people for the right jobs and having those jobs pay enough to move people toward self-sufficiency. We are working with Career Pathway models that include short term training that can help to get people into jobs that have future mobility and room to learn and grow. The challenge is always getting the people to those jobs due to lack of adequate transportation and having those jobs fit with the realities of our families (child care, work hours, flexibility). We are working to develop career pathways in Healthcare, Construction/Infrastructure, Manufacturing, Public Service, Customer Service/Retail Management, and IT.

Mental health and the numerous deep barriers that our current participants are facing is a big challenge. It's not just housing, or not just childcare or not just domestic violence or not just mental health; but rather it is a combination of these barriers. the challenge becomes in trying to figure out the best order to tackle those barriers in for each participant. We also really struggle with low wages. People are working, but they are still really struggling to make ends meet. That hurts even more when \$11/hr may make them "over income" for MFIP."

#### 3. \* Identify the strengths in your community that you are most proud of that benefit MFIP/DWP families.

The collaboration and teamwork between the E&T staff and the County Eligibility Workers continues to be a strength. This strong relationship, along with fluid and frequent communication, benefits our participants. Having a Career Planner on site in a small community is also an ongoing benefit to anyone looking for a job or a new career opportunity. Many adults in rural regions don't have this option within a reasonable driving distance. This last year, the E&T provider physically relocated their office across the street from the County Agency. This has been a plus for participants as they can stop at both offices in one stop, if needed.

Community resources from a variety of shareholders allows workers the advantage of accessing funding from additional agencies. Wabasha County is proactive in looking at funding options that could benefit both the participants and the community.

Also, both the County Eligibility Worker and E&T staff are technologically minded. In Wabasha County, the use of WF1 is increasing WF1 also aids County Eligibility Workers as they have access to documents submitted via WF1 as well as notes. The upcoming ability for Eligibility Workers to look at additional documentation may also be a benefit that enables both agencies to provide serve our participants in a more wellrounded manner. A. Needs Statement (continued)

## 4. What strengths and resources do you have available to address the needs of your participants?

Please **check all** the resources available to participants in your service area and check whether the resource is available within MFIP financial or employment services "in-house" or from a partner organization (County/Tribal Nation resources with developed connections to MFIP), and/or an external community resource or both. If you lack the resources in your service area, check the Resource Gaps column. Add any "other" resources that you consider necessary.

# 6. Employment Services Provider(s) Information

<u>MN Statute 2563.50, Subdivision 8</u>: Each county, or group of counties working cooperatively, must make available to participants the choice of at least two employment and training service providers as defined under <u>MN Statute 2563.49</u>, <u>Subdivision 4</u>, except in counties contracting with workforce centers that use multiple employment and training services or that offer multiple services options under a collaborative effort and can document that participants have choice among employment and training services designed to meet specialized needs.

List your current employment services provider(s) and check the respective box to indicate which population served. If a Workforce Center is the only employment services provider, list the multiple employment and training services among which participants can choose. Section I of this form addresses provider choice.

**F. Measures** 

# **Performance Measures**

Performance-based funding is determined by a service area's annualized Self-Support Index value. Review the information and report links in this section to see the effect of performance on funding and reporting, based on <u>MN Statute 256J.626</u>, <u>Subdivision 7</u>.

Each year a bonus to a service area's Consolidated Fund allocation will be based on its performance on the Self-Support Index in the previous April to March year.

The three-year Self-Support Index (S-SI): This measure starts with all adults receiving MFIP or DWP cash assistance in a quarter and tracks what percentage of them, three years later, are no longer receiving family cash assistance or are working an average of 30 hours a week if still receiving cash assistance. Those who left MFIP after reaching 60 counted months and those who left due to 100 percent sanction are only counted as a success if they worked an average of 30 hours per week in their last month of eligibility or if they began receiving Supplemental Security Income (SSI) after family cash assistance ended. To provide fair comparisons across service areas, DHS calculates a "Range of Expected Performance" for the S-SI that is based on local caseload characteristics and economic conditions. The service area's Self-Support Index value is whether the service area was above, within, or below its expected Range.

The S-SI and Range are annualized for the four quarters in the April through March year ending in the reporting year before the funding year. See the annualized report on the MFIP Reports page on the DHS website for 2023: <u>Minnesota</u> <u>Family Investment Program 2023 Annualized Self-Support Index (state.mn.us)</u>. A service area with an annualized S-SI <u>Minnesota Competent Sector Pelforms for 2029</u> will be a 2.5 percent bonus added to its Consolidated Fund allocation for calendar year 2024.

If your service area is receiving a bonus, congratulations! Please share a success strategy here:

N/A - Within

9987 characters remaining

If your service area performed "above" or "within," you can go to Section G.

If your service area performed "below" for two consecutive years, you will have to **negotiate a multi-year improvement plan** with DHS. If no improvement is shown by the end of the multi-year plan, the next year's allocation must be decreased by 2.5 percent, to remain in effect until the service area performs within or above its Range of Expected Performance.

F. Measures (continued)

# **Racial/Ethnic Disparities**

A racial/ethnic disparity is defined as a one-year Self Support Index that is five or more percentage points lower for a non-white racial/ethnic group than for the white group of MFIP/DWP-eligible adults in the County/Tribal Nation or consortium. The report "Annualized MFIP Performance Measures by Racial/Ethnic or Immigrant Group and by County, County Consortium, and Tribal Provider" is now available at <a href="https://public.tableau.com/app/profile/tyler.borgmann/viz/AnnualizedS-SISuccessRatebyRacialEthnicorImmigrantGroup/SSISuccessRateDashboard-intro">https://public.tableau.com/app/profile/tyler.borgmann/viz/AnnualizedS-SISuccessRatebyRacialEthnicorImmigrantGroup/SSISuccessRateDashboard-intro</a>

To view your agency's measurement, click on the "S-SI Success Rate by Agency" button. This will bring you to the statewide data for 2022. From the first drop down you can select your county, county consortium or Tribal Nation. If you note any groups that are below the line (indicated by a green bar) your county, county consortium or Tribal Nation will answer the next question below:

What strategies and action steps for each of the groups below the disparities reference line do you plan to implement for the coming biennium to reduce these disparities?

In a small county such as Wabasha, there is a very small number of employment services staff, and it is difficult to find staff who represent the diverse community members we may see referred for services. The number of people falling into the disparities category is often not enough to develop a specific, specialized set of services. To offset this and deliver the best services to all our customers, WDI employment services staff have attended multiple trainings over the past year focused on making poverty informed decisions and providing services that fit the unique needs of our MFIP families, learning about working effectively with diverse populations and motivational interview training to allow us to build deeper relationships with our participants. Our outreach specialist meets with employers to help them understand the workforce of today and to help remove stigma and racism in employment by providing facts.

Action plan - We will continue to be educated by bringing forward opportunities to educate staff and the community. Build strong relationships with all our participants to ensure they are getting the best possible service while putting additional focus on the experiences our African American and other diverse populations.

These efforts aim to to create a more equitable and inclusive environment ensuring all African American and other ethnic participants have equal opportunities to access employment resources and succeed as other ethnic groups have done.

H. Administrative Cap Waiver

Minnesota Family Investment Program (MFIP) allows counties to request a waiver of the MFIP administrative cap (currently at 7.5%) for providing supported employment, uncompensated work, or a community work experience program for a major segment of the county's MFIP population. Counties that are operating such a program may request up to 15% administrative costs per <u>MN Statute 256J.626, Subdivision 2</u>.

If your County/Tribal Nation is interested in applying for the waiver for the coming biennium, please complete the following four questions.

# I. Provider Choice

MFIP provisions require counties to provide a choice of at least two employment service providers available to participants unless a workforce center is being utilized (<u>MN Statute 256J.50, Subdivision 8</u>). Counties may request an exception if meeting this requirement results in a financial hardship (<u>MN Statute 256J.50, Subdivision 9</u>).

Does your County/Tribal Nation:

- $\bigcirc$  Have at least two employment and training services providers. Go to Section J.
- Have a CareerForce center that provides multiple employment and training services, offers multiple services options under a collaborative effort and can document that participants have choice among employment and training services designed to meet specialized needs. Go to Section J.
- $\bigcirc\,$  Intend to submit a financial hardship request.

I. Provider Choice (continued)

# **Financial Hardship Request**

A financial hardship is defined as a county's inability to provide the minimum level of service for all programs if a disproportionate amount of the MFIP consolidated fund must be used to cover the costs of purchasing employment services from two providers or the cost of contracting with a workforce center.

To request approval of a financial hardship exception from the choice of provider requirement, please provide the following information.

- 1. If the County/Triban Nation had a choice of providers in calendar year 2023, describe:
  - factors that have changed which indicate a financial hardship,
  - $\ensuremath{\bullet}$  why the hardship is expected to continue, and

• the magnitude of the hardship, which makes limiting delivery of employment services the best financial option for the County/Tribal Nation.

2000 characters remaining

Summarize options explored by the county, including use of other partners in a workforce center or other community agencies, such as a Community Action Program or a technical college. The summary should also include:

 major factors which prevent the County/Tribal Nation from utilizing these options and include a cost analysis of each option

considered; and

• the process used to determine the cost of other options (RFP or other County/Tribal Nation process).

2000 characters remaining

**3.** If the County/Tribal Nation proposes to directly deliver MFIP employment services, provide a budget and staffing plan that clearly indicates consolidated funds will not be used to supplant County/Tribal Nation funds. The description should include information about what steps will be taken to ensure that staff have the experience and skills to deliver employment services.

2000 characters remaining

Financial Hardship requests will be reviewed by the Department of Human Services (DHS) and the Department of Employment and Economic (DEED) leadership. DHS and DEED will also look at the amount budgeted by the County/Tribal Nation for employment and training during calendar year 2023 and use this amount as a guide to determine whether the amount budgeted by the County/Tribal Nation for calendar year 2024 is reasonable.

If a financial hardship is approved, DHS and DEED will closely monitor County/Tribal Nation programs to ensure outcomes are achieved and services are being delivered consistent with state law. For additional information or if you have questions, please email Pamela McCauley at <u>Pamela.McCauley@state.mn.us</u>.
