### **Request for Quote**

#### **Information:**

The Town of Youngsville is seeking a quote for Street repairs and resurfacing inside the Town limits. **The Town will give preference to the lowest bid for repaving work in fiscal year 25, 26, and 27.**

#### **Quotation inclusion:**

The following streets need repairs. Please quote the individual street and explain the type of repair needed for the areas mentioned.

- 1) **Anderson Park Drive** – There is an area of this road that has a sink spot in need of repair as well as surface cracks that begin at the corner of Nassau Street and are found through the entire roundabout area. We are seeking costs related to repair and resurface.
- 2) **East Franklin Street (With Culvert)** – This street is located between N. Nassau and NE Railroad Street. The surface of this road has many utility cut repairs that have created an uneven surface. There is a culvert that runs on E. Franklin that needs to be replaced during this process.
- 3) **N. Cross Street** – This section of road begins in a portion of our central business district located from E. Main Street to E. Winston Street. Once completed the business area would need to be remarked with appropriate stripping. Just past the 4-way stop a replacement culvert would need to be included. This road is widely used by residents and daily commuters. The road would need to maintain accessibility throughout repair.

- 4) **W. Franklin Street** – This section of roadway runs directly off N. College Street and NW Railroad Street. There is several uneven repaired utility cuts as well as surface cracking that need to be addressed during this repair.
  
- 5) **Town Hall Parking lot** – We are seeking to resurface a portion of this area to blend in with the recent installation of asphalt parking. Restriping of the parking lines will need to be included in this repair.

**Timeline - We are placing a deadline for receipt of your quote as February 23, 2024 – 4 pm.**

**Summary –**

All quotes should be sent via electronically to [rsmith@youngsvillenc.gov](mailto:rsmith@youngsvillenc.gov) by the timeline set. You may include any type of information in reference to your repair quote. In your information package, please include the time frame needed to start and complete each project. If you would like to schedule a site visit, please contact me at the above email address.

If you have any questions or need additional information, please contact me.

Randy Smith  
Public Works Supervisor  
Town of Youngsville
